

QEH Woolwich-Winter Pressures Projects

Client

Vinci Facilities & the Lewisham & Greenwich NHS Trust

Description

As part of the strategy to combat winter pressures at the Queen Elizabeth Hospital in Woolwich, Tangram were commissioned to provide a Clinical Decision Unit (CDU) to support the existing busy A&E department. Making way for the CDU created the requirement for several departmental moves which included In-Patient / Out-Patient Discharge, Fracture Clinic, Medical Photography as well as moves within the A&E department itself.

Innovations & Added Value

The programme for the works from inception through to completion was from 1st July - 31st October 2014 and Tangram supported these projects with a dedicated team allowing continuity and consistency of information to be provided.

Status

Ongoing, due for completion in October 2014.
