

Intensive Care Unit, Charing Cross Hospital

Client

Hammersmith Hospital NHS Trust

Description

The 12-bed ICU is part of the strategic expansion of the Critical Care Unit. The emphasis was on quality of space, equipment, light, materials, fixtures and fittings. The unit represents an elegant working environment to attract medical staff. "Not your typical NHS" was the brief.

Innovations & Added Value

The response was a bespoke reception desk, French limestone flooring, state-of-art ceiling mounted medical gases, glass wash basins, dedicated materials management adjacent to each patient, staff base with floor-to-ceiling glass partitioning and more natural light.
