

# Accident & Emergency, Epsom Hospital

## Client

Epsom & St Helier NHS Trust

## Description

Tangram provided Architectural and Project Management services for the a new A&E department. The department caters for 50,000 cases per year and contains a five bay Resuscitation Area, X-ray Suite, a ten bay Majors Area and all associated specialists.

## Innovations & Added Value

The design involved reconfiguration and extension of the existing building to provide an entrance and waiting area. The project features a landmark canopy with a cantilever design which allows ambulances to drop and leave off without reversing.
