

Ellis Ward Refurbishment, Royal Marsden Hospital

Client

Royal Marsden Hospital NHS Trust

Description

Refurbishment of an existing cancer ward to provide better access to ensuite facilities and create a contemporary feel which improves the quality of the patient environment.

Innovations & Added Value

The cost of the works are being funded by a benefactor and Tangram worked closely with the designers to produce which uses slashes of vibrant colour to lift the feel of the ward as well as making use of controlled lighting to assist wayfinding and provide definition to the reception area.
